Workgroup Purpose

Purpose: Divert organic material and improve the organic material management system in Washington in order to reduce methane and combat climate change.

Role: Gather stakeholder input to inform policy tailored for Washington about mandating composting and other organic waste diversion from landfill, waste and food donation, contamination, facility siting, and waste reduction, among other topics. This policy builds on HB1799, which set policies in motion, so that Washington can more fully develop its own version of California's SB 1383 and provide certainty for our residents, government agencies, and businesses to prepare for future actions.

Workgroup Facilitation

Agenda Committee: We have formed an agenda committee that will meet before each meeting to help chose topic areas and speakers for each meeting's agenda.

- Committee members include:
 - Heather Trim, Zero Waste Washington
 - Alli Kingfisher, Ecology
 - Brad Lovaas, WRRRA
 - Hannah Scholes, King County
 - Jay Blazey, Cedar Grove Composting
 - Kate Kurtz, City of Seattle
 - Travis Dutton, WSAC

Facilitation: Julie Colehour and Sam Kwok of C+C have been hired by a group of stakeholders to facilitate this process. Funders include: King County, Zero Waste Washington, Food Lifeline, Lautenbach Recycling and others (still being confirmed).

- Facilitation goal: Gather and accurately document all stakeholder feedback by topic area.

Workgroup Structure

- Made up of a diverse set of stakeholder organizations
- Two meetings per month through end of year
 - 1st and 3rd Wednesdays
 - Exceptions include Tuesday, July 18 and Tuesday, October 17
